At the death of the war President there is repect for his personal character, condolence for hose who mourn him, the sense of the national spect for his permonal character, condelence for those who mourn him, the sense of the national loes, but not a change of epinion as to policy, it that opinion was more than for partisan effect, but was bonest with its expression regarded as a duty. We are not considering the man who has disd but the policies of a Fresident in the administration of public affairs upon which the wetters, the ple depend. The policies which he formulated and declared are still issues in the lives of the people. The policies which he was devoted in the front again and we shall probably have a national campaign upon it.

ANSAS CITY. Mo., had allowed her people to get into an exceptionally high degree of susceptibility to smallpox. Therefore, when that disease got a foothold in the community it proceeded to spread in a way that was common forty years ago, but which people have seen little of in the last twenty years. The disease was rather malignant and a fair number of people died. The city on the Missouri radiated smallpox into the surrounding territory.

Missouri radiated smallpox into the surrounding territory.

The epidemic is now at an end and it
has been reported on officially by outside agencies, and the facts are known
and serve as a warning to other communities. There is no reason for referring to the matter except to call attention to some very bad advice given
the Kansas City public which the people
of some other community might be impressed by.

An advertising man in Kansas City concluded that he would investigate and advise. What experience he had had in controlling smallpox does not appear. Nevertheless, he was satisfied with his superior qualifications. He wrote a report on the epidemiology of smallpox in Kansas City which is about as ridiculous a document as I have seen intely. Perhaps this rentleman is a great advertising man, but as an epidemiologist he got over his head as soon as he hit the water.

Making Sure of \$1000

OU can make sure of receiving \$1,000 or more and at the same time provide your family with life insurance protection for \$1,000, payable in the event of your death.

Suppose you are 30 years old. You open a Savings and Life Insurance account with a deposit of \$8.70, which represents saving less than thirty cents a day for one month.

You deposit \$8.70 each month for 120 months, when you will receive over \$1,000 in cash. If you do not live to complete your deposits, the insurance company agrees to pay your beneficiary \$1,000 and the Bank will pay the balance in the savings account. At the end of the eighth year, for example, the total amount received by your beneficiary in case of death would be over

Should you be totally and permanently disabled, the insurance company agrees to pay you \$10.00 a month for the rest of your life; you would not have to make any more deposits, and when you die your heirs would receive the full face amount of your policy just the same. The rates vary according to your age, and you may save any amount from \$1,000 to \$25,000 by depositing a proportionately larger amount monthly.

In Motordom

THERE is big money and the thanks of a nation of motorists awaiting the man who perfects a device that will baffle the insenuity of the modern automobile thief, according to Edwin Greer, president of the Greer Automotive Engineering college. He said yesterday that the lock which merely prevents the engine from being started after the engine from being started after the car has been parked is of little use, pointing to the increase in recent au-

ing device which can be deadly. A few mechanical changes in the motor, changes known only to the car owner, would help complicate matters. Come on, you tinkering mechanics; set your brains

MULDOON CHOICE TODAY?

EW YORK, Feb. 7.—(Special.)—The state athletic commission will meet tomorrow for the purpose of electing new officers. While William Muldoon is being generally picked as the man who will be chosen as the new chairman, there have been many rumors for the last few days that the Job will go to George E. Brower. However, there is a strong hope among the boxing fam that Muldoon will be placed again at the head of the commission, despite what have been interpreted as contrary hints.

Sometimes a cold sore looks so ugly, one is tempted to hide it.

To stop a cold sore from aprending—to prevent inflammation—to get rid of it quick, use Unquentine:

For a skin in trouble from chap, chilbians, itch or from any surface injury or irritation—Unquentine is an unfailing "friend in need." Unquentine is always kept on hand in over a million homes and in thousands of factories, fire departments and hospitals. Have it in your medicine chest You'll not regret it.

She is young, married only two years, and has already discovered, to her utter consternation, she tells me, that she and Jim are just not suited to each other. Their tempers are not compatible. He gets fearfully cross with her if she answers him back. And he will not listen to reason. And the consequence is they have frequent quarrels.

Sol, what kind of faint hearted soul are you? If you can't put up a better fight than that for your girl. I am afraid she will not grow to fike you. Half the battle in winning a girl is making yourself believe you are the sort of young man that she just naturally must approve of. In other words, I am trying to tell you, Sol, to shine up your conceit a bit more and do not be afraid to show it—to your rival least of all.

with a matching hat. Together they form one of the brightest ideas in accessories which have recently come to us from Paris. The hat is of apple green faille, and its one ornament consists of rhinestones tracing the French motto, "Qui veut peut," which, transisted, is "He who wishes can." What a buoyant philosophy and with what complete frankness it advertises a perfect leap year sentiment! Yet, just in case this sermon in rhinestones should be distrusted by the shy, self-doubtful man who beholds it, the same word of encouragement is breathed by the walking stick. Here, again, on a green enamel top, "Qui veut peut" is traced in sparkling brilliants.

This set of matching hat and stick has just recently taken possession of New York. Marthe Regnier, the young French actress, who has started a millinery atelier in Paris, is responsible for our moticed version. Aside from this present model, she has sent over to us numerous other bonnets unac-companied by the walking stick. These collections of Regnier models are at-tracting wide attention, and some of

these is the cloche with turned back front brim; another is the rolled Breton brim affixed to varying types of crowns; still another is the high crowned model known as the "Amazone." Speaking in general, it may be said that the Directoire period, which bearing on millinery styles.

A Tribute to the Employes of the Rapid Transit Lines

733,883

Revenue passengers used the service of the elevated lines on Tuesday, February 5, which is about 100,000 more than on an ordinary Tuesday, and the greatest number carried on a business day in the history of the railroads.

Although the city was held in the grip of the worst blizzard in years the employes of the "L" lines operated trains practically on schedule.

The employes of the Rapid Transit Lines are at the service of the public at all hours of the day and night and under all weather conditions.

Coupon Notes in denominations of \$1,000 and \$100. Redeemable as a whole only, on any interest date on 60 days' notice at 103 and accrued interest.

GUARANTY TRUST COMPANY OF NEW YORK, Trustee

These Notes are direct obligations of the Wabash Railway Company issued under an Equipment Trust agreement, dated January 15, 1920, between the Director General of Railroads of the United States and the Trustee, and the Railway Company. They have been stamped to show that they are subordinate in lien to the \$5,539,600 of unstamped Notes of the same issue now outstanding. The Equipment Trust under which these Notes are issued has as security the following standard gauge

2,800 40-ton Steel Underframe Double Sheathed Box Cars
1,000 55-ton All-Steel Hopper Cars
20 Light Mikado Locomotives

The original cost of the above equipment was approximately \$11,331,000 and the title to all equipment under the agreement remains with the Trustee us. il all of these Notes have been paid.

EARNINGS - The Wabash Railway Company reports surplus earnings after all fixed charges and taxes, for the 12 months ending December 31, 1923, of \$5,410,873. This is equivalent to about \$5 per share on its \$65,098,400 of Preferred "A" and \$12,173,200 of Preferred "B" and over 21/2% on its \$66,103,400 of Common Stock. Earnings available for interest charges in 1921, 1922 and 1923 (the three full years since return to private operation) have averaged about 1.7 times interest requirements. Similar earnings for 1923 amounted to about 2.4 times interest requirements. Exclusive of \$14,281,400 outstanding Equipment Notes, which are payable serially, the Railway Company has no Bond maturities prior to 1939, except \$100,000 of Branch Line Bonds which fall due in 1928.

The Company owns and operates public utility properties serving directly or indirectly twenty-five communities in Michigan with one or more classes of service, namely, electric light and power and gas. Approximately 97% of the net earnings are derived from gas, electric light and power (81% electric and 16% gas) and practically all current produced is generated by hydro-electric stations.

Security: This issue of \$1,100,000 Series A Bonds will be a First Mortgage on all of the properties nowowned, subject only to \$365,000 underlying divisional bonds on a part of the properties, the mortgage of which has been closed.

Valuation: The value of the Company's property, less depreciation, on which these Bonds will be secured by a direct first mortgage, as' recently determined by independent examining engineers, is over 2.4 times the total amount of this issue now outstanding.

Earnings: During the twelve months ended September 30, 1923, the net earnings were \$171,013.07 as compared with annual interest requirements on the total mortgage debt now outstanding of \$87,900.00.

Management: The Michigan Gas and Electric Company is controlled by the Middle West Utilities Company, thus bringing the management under the direction of Mr. Samuel Insull and associates, who have been notably successful in the development and operation of public utility properties.

Panola, Quitman and Tallahatchie Counties, Mississippi, with a combined area of 1,100,800 acres, are located in the northern portion of the famous Yazoo-Mississippi Delta, about 50 miles south of Memphis, Tennessee. All three counties rank among the leading agricultural counties of Mississippi, the 1920 U. S. Census Report showing the combined value of all farm property at

Panola-Quitman Drainage District, situated in the southwestern portion of Panola-Quitman Drainage District, situated in the southwestern portion of Panola County, the southeastern portion of Quitman County, and the north central portion of Tallahatchie County, embraces 73,825 acres of Delta land which are taxed for this improvement. The soil of the district consists of a rich, black alluvial deposit, which is very fertile and produces large yields of cotton, corn and hay. The Batesville and Southwestern Railroad enters the district in its northeast corner and extends to Crowder in the approximate center of the district. Convenient shipping points are also furnished by the towns of Marks, Lambert and Charleston, which are served by the Yazoo & Mississippi Valley Railroad, and which lie about three miles from the district. The population of the district is conservatively estimated at 4,500.

The principal and interest of these bonds are payable from taxes irrevocably levied against the real property in the district in proportion to the benefits derived from the improvement. These benefits, as confirmed by the Chancery Court, aggregating \$3,935,920, are assessed against 73,825 acres and all must, if necessary, be collected to pay the principal and interest of these bonds.

THE HUMPHREYS PURCHASE

The Pure Oil Company is now purchasing all of the properties formerly owned by Humphreys Oil Company and Humphreys Pure Oil Company, these Bonds being issued in part payment.

The Company's investment in the Humphreys \$39,500,000, or \$24,500,000 in excess of this issue. Net earnings of the Humphreys properties for the two years and nine months ended December 31, 1923, averaged \$8,462,788 before depreciation and depletion, and \$6,128,223 after depreciation and depletion, or respectively 10 times and 7 times the maximum annual interest requirement on these Bonds. Such earnings before depreciation and depletion averaged more than the maximum tion and depletion averaged more than the maximum annual requirement for both interest and serial maturities.

OIL SALES CONTRACT

A contract (to be acquired with the Humphreys properties) with The Prairie Oil & Gas Company and Sinclair Crude Oil Purchasing Company jointly, provides for the purchase by those companies of at less one-half of the crude oil as produced from the Humphreys properties, up to 33,333,333 barrels, at \$1.50 a barrel. Of this amount approximately 15,000,000 barrels have been delivered. been delivered.

SECURITY These Bonds are to be direct obligations of The

Pure Oil Company secured by a closed first mort-gage on the principal Humphreys properties—in-cluding leaseholds on 4,200 acres of oil produc-ing land in the Mexia, Powell and Currie Fields having a present gross production of 28,000 bar-rels daily, and a new refinery of 15,000 barrels daily capacity strategically located on the Gulf Coast—and also by pledge of all stock of the sub-sidiary which owns 208 miles of trunk pipe line, and by pledge of the Oil Sales Contract.

In connection with this financing Mr. William A. Kunkel has valued the properties which will form the security for the Bonds et \$31,000,000, or more than twice the amount of the Bonds. Of this, \$12,000,000 is represented by physical properties consisting of the refinery, pipe line and storage facilities, and \$19,000,000 by the producing prop-

Operations of The Pure Oil Company cover all phases of the petroleum industry and are well balanced as to production, refining and marketing. Its fixed properties are among the largest in the United States and (including the Humphreys properties) have recently been valued by Mr. Kunkel at \$150,000,000.

The consolidated balance sheet as of December The consolidated balance sneet as of December 31, 1923, adjusted to the acquisition of the Humphreys properties and to the issuance of these Bonds, shows fixed assets (after deducting depreciation and depletion reserves) and investments in other companies at \$152,000,000 compared to total funded debt of \$30,859,000. Current assets amount to \$30,451,000 and current liabilities to \$18,244,000. If inventories of crude oil ties to \$18,244,000. If inventories of crude oil were valued at present posted prices, such current assets would be more than \$4,000,000 greater.

EARNINGS

Net earnings of the Company, with which are combined the earnings of the Humphreys companies since inception in April, 1921, have been certified by Messrs. Arthur Young & Company,

Net Earnings before Interest and Federal Taxes Years Ended After Depreciation on After all Deprecia-March 31 Non-Producing Properties tion and Deplet.on 1919.....\$11,368,286 \$ 7,943,370 8,432,400 1920..... 11,545,320 7,979,540 1921..... 11,357,183 6,150 488 *13,350,881

Net earnings, after depreciation on non-producing properties, for the five years, averaged \$12,761,000, or 5 times annual interest requirements of approximately \$2,500,000 on total funded and floating debt to be outstanding upon completion of this financing. After all depreciation and depletion, such net earnings averaged \$8,771,000, or 3½ times such interest requirements.

For the nine months ended December 31, 1923, net earnings before depreciation, depletion and interest were \$12,941,536, and after depreciation on non-producing properties only, were \$10,325,832.

THE CLEVELAND TRUST COMPANY, CLEVELAND, TRUSTEE

History: The Continental Gas & Electric Corporation is primarily engaged, through its subsidiaries, in development and distribution of electric power from modern central stations.

Organized in 1912 by the interests which are now in control of its affairs, the Corporation has had a record of continuous success. It has paid, without interruption, regular quarterly cash dividends on its Preferred Stock since its organization in 1912.

The Corporation, through its subsidiaries, does all the electric light and power business in Kansas City, Mo.; sells power in 14 nearby counties in Missouri and Kansas; furnishes electric light and power to 141 cities and communities and gas to five cities in Iowa, Nebraska and Missouri; supplies electricity and gas to Brandon, Manitoba and owns and operates the steam heating plant at Kansas City.

There is an aggregate installed normal capacity of 148,670 kilowatts, of which 90,000 kilowatts is contained in one of the most modern and efficient steam generating stations in the world (now being increased to 120,000 kilowatts), so designed as to accommodate an ultimate capacity of 240,000 kilowatts.

The Corporation derives over 84% of its gross revenue from the sale of electricity, and the balance of earnings is derived from the sale of gas and steam heat. Its subsidiaries have more than 180,000 customers and serve a total population of over 817,000.

Earnings: The combined earnings of the subsidiaries of Continental Gas & Electric Corporation (including the Kansas City Power & Light Company recently acquired and giving, effect to present financing) are as follows:

The balance of \$3,245,453.05, as shown above, is in excess of 33/4 times the annual interest requirements of \$821,231.84 on the total Continental Gas & Electric Corporation funded debt.

Purpose of Issue: The proceeds from the sale of these bonds will be used in supplying a portion of the purchase price of the controlling interest in the Kansas City Power Securities Corporation, which company owns all the common stock of the Kansas City Power & Light Company.

not less than a majority of the outstanding common stock, and approximately 75%, but not less than a majority of the outstanding common stock, and approximately 75%, but not less than a majority of the outstanding preferred stock of Kansas City Power Securities Corporation, which Company owns all of the common stock of Kansas City Power & Light Company, the operating subsidiary, under a Collateral Trust & eement containing appropriate protective features.

The total replacement value of the properties of the subsidiary companies based on appraisals and estimates of the Corporation's engineers is in excess of \$67,000,000.

Equity: The funded debt of the Corporation including this issue will take precedence over \$6,858,300 1/6 Prior Preference Stock, \$1,751,400 6%-8% Participating Preferred Stock, and 106,035 shares of no par value Common Stock, having an aggregate market value in excess of \$12,250,000.

Sinking Fund: The Collateral Trust Agreement provides for an annual sinking fund payment for the retirement of bonds, equal to 1% of the maximum principal amount of bonds outstanding at any time preceding such payment during the first five years, 11/2% during the second five years and

LOS ANGELES, with an estimated population of 900,000, is the leading commercial city of the Southwest, and the largest municipality west of St. Louis. Three transcontinental railways have terminals in the city, and thirty-nine concerns with vessels in international service use the harbor. The more important manufactured products are cotton and woolen goods, mining machinery and factory products, automobiles and rubber goods.

The valuation of taxable property is \$1,993,921,940, and for purposes of taxation, taxes are levied on not to exceed 50% of this valuation. The net bonded debt is reported as \$52,125,862, or about 256% of the valuation. The combined net debt of the city and all districts located wholly or in part within the city, namely, municipal improvement districts, flood control district and school districts, amounts to about 4% of the above valuation.

These bonds, issued for sewerage disposal, water works, city hall, library, viaduct and play-ground purposes, constitute direct obligations of the city of Los Angeles, payable principal and interest from unlimited taxes against all the taxable property therein.

Exempt from all Federal Income Taxes

Population, 1923 [estimated] 30,000,

Alton Community Consolidated High School District includes the entire city of Alton and adjacent territory containing industrial plants situated outside the city limits.

Alton is one of the most important manufacturing centers in Illinois, the Standard Oil Company of Indiana, Shell Union Oil Corporation, Western Cartridge Company, Illinois Glass Company, Laclede Steel Company, and several other large industries having large plants located within the School District. The five banks in Alton have combined deposits of over \$10,500,000. Ample transportation facilities are furnished by the Mississippi River and by the Chicago & Alton, Chicago, Burlington & Quincy, Wabash, New York Central and the Peoria & St. Louis Railroads. These bonds are, in the opinion of counsel, direct obligations of the entire School District payable from taxes levied against all the taxable property therein.
